## **HOW TO SOLVE**

Kriss Kross puzzles are rather like jigsaws and you solve them by fitting words in the word list into their correct positions in the diagram. We list the words in alphabetical order according to their length. Words appearing in brackets do not fit in the grid. Sometimes you may find there are several words which seem to fit in the same space. To solve this problem you will have to think several moves ahead, trying out different alternatives until you find the correct combination of words. Have fun!

# QUICK KROSS

### *Did You Know?*

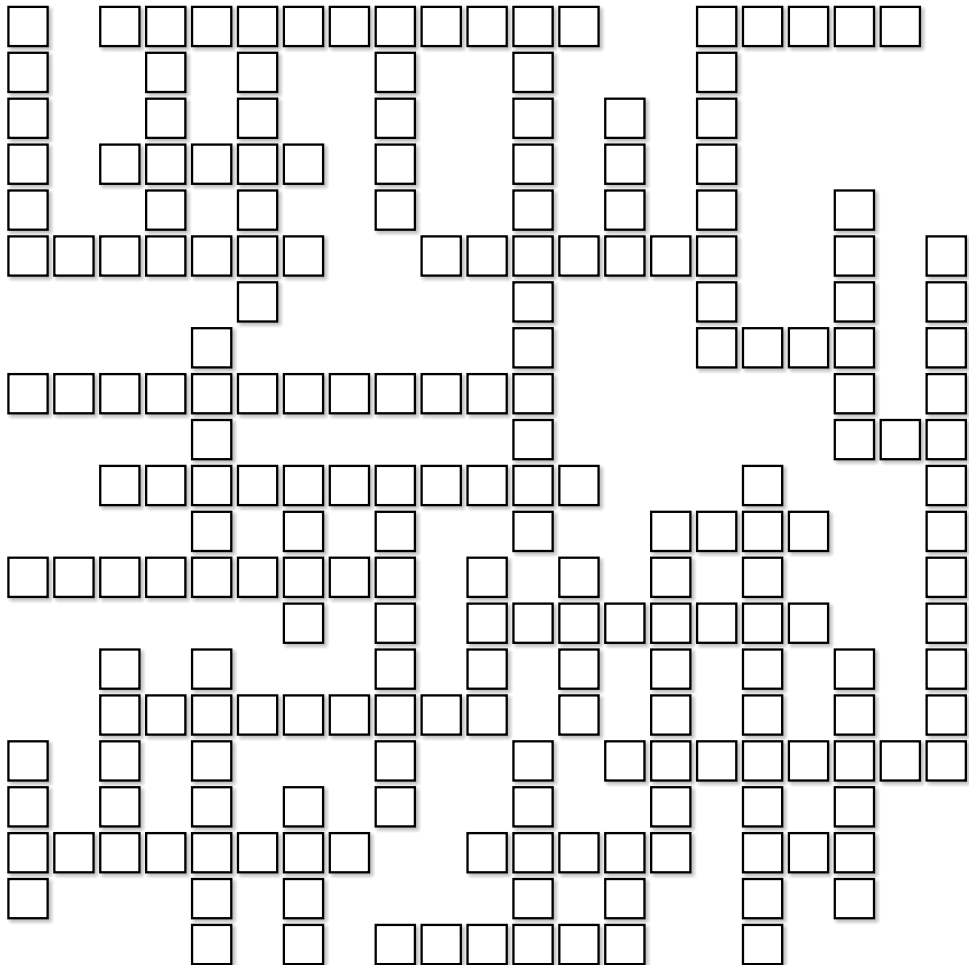

The New Forest covers about 560 square kilometres. William the Conqueror created the area as a hunting preserve during the 11th century.

It is classed as common land today, meaning that ordinary people can use it for grazing their animals.

About 6,500 animals owned by commoners roam the forest freely.

### *Did You Know?*

Ailsa Craig is an island in the outer Firth of Clyde, ten miles west of mainland Scotland.

Colloquially known as 'Paddy's milestone', it is a bird sanctuary, providing a home for many gannets and some puffins.
