## **Q-BRUTE**

In this puzzle, the upper diagram contains all 26 letters of the alphabet. As you identify each letter, enter it into one of the small grids (grid A for letters 1-26; grid B for letters 27 and onwards). When completed, the outer columns will be found to contain the title of a book and the name of its author. The lower diagram will spell out a passage from the book, using letters from grid B. Three starter letters are given. To find more letters in grid B you may need to cross-refer as you complete the quotation grid, and grid B may not use all possible letters.
