

# Two-by-Two

Each word in a clue can be preceded by the same two letters to spell out another word. For instance, INTER, LATE and TENT can be preceded by PA to make PAINTER, PALATE and PATENT. Can you solve the three clues below, then spell out the three pairs of letters to make a six-letter word?

- LINE, MALE, WEST
- ARCH, INK, RANGE
- MINE, ODES, RANT
