

LONESUM

Fill the grid so that each sum (block of cells) adds up to the total in the box above or to the left of it. You can only use the digits 1-9 and you must not use the same digit twice in a sum. In addition, a combination of digits forming a sum can only be used once in a grid*.

*For example, if a two-cell 8-sum comprises 3 and 5, then 3/5 or 5/3 cannot appear in any other two-cell 8-sums in the grid.
